I think that I'll always love that special someone
No matter if we haven't been talkin in a while
And that special boy knows that if he falls on his back
I was there for you and I am here now
But this secret crush has gone on long enough
And I think it's time to get out in the open before it's too
late
Mon amour pour vous
My love will always be true to you
Cause you're my boy and you know that I got you
Andâ€¦

CHORUS:

Mon amour pour vous
With you by my side I will be sure to ride
No matter what kinda trouble you're in
Now we have always been honest with each other
except for one thing
When you asked me how I felt about you I lied right in
your face
I said that we're just friends want it to stay that way and
back then it did
Now that I'm all grown-up I want you baby sho-nuff, it's
real
Now I see you in another light
And something about this seems right
I can't get you out of my mind
I think I have found love this time
Mon amour pour vous
My love will always be true to you
Cause you're my boy and you know that I got you
Andâ€¦

CHORUS

Mon amour pour vous
With you by my side I will be sure to ride
Boy I'm really feeling you and you need to know
That this feeling is too strong I won't let it go
We should be lovers and friends like Hakeem and Mo

And I'm your baby girl forever just wanna let you know
Boy I'm really feeling you and you need to know
That this feeling is too strong I won't let it go
We should be lovers and friends like Hakeem and Mo
And I'm your baby girl forever just wanna let you know
Knowâ€¦know that I'm down for you
Baby no matter what

Bonnie & Clyde
Jay-Z and Beyonce
Romeo and Juliet
Down for you
No matter what you're going through
Oh baby no, shine on!
