Oooh...

Time was, time was

Time was when we had fun  
On the schoolyard swings  
When we exchanged graduation rings  
One lovely yesterday  
(Yesterday, yesterday)

Time was when we wrote  
Love letters in the sand  
Or lingered over our coffee and  
Dreaming the time away  
(The time away)

Picnics and hayrides  
And midwinter sleigh rides  
And never apart

High hikes in the country  
And there's more than one tree  
On which I've a place  
In your heart

Darling, every tomorrow  
Will be complete  
If all our moments  
Are half as sweet  
As all our time was then

As all our time was  
All our time was then
