So now little man you've grown tired of grass  
Mescaline, Cocaine, Acid and Hash  
Here's someone pretending to be your friend  
Let me introduce you to Miss Heroin

Well sweetie before you start fooling with me  
Let me inform you how it will be  
Don't get no illusions, you'll be my slave  
I've sent men much stronger than you to their grave

And when I have entered deep down in your veins  
Craving me always will drive you insane  
You'd sell your own mother to pay for my charms  
And rock in contentment with me in your arms

And when you realise the monster you've grown  
You'll solemnly promise to leave me alone  
Do you think you're special, got some kind of knack  
Wait 'til you try getting me off your back

The vomits the cramps your guts tied in a knot  
And every nerve screaming for one little shot  
The hot sweats the cold chills the withdrawal pains  
All are relieved by my little white grains

And when you return just as I have foretold  
You'll bring me your body, your conscience your soul  
You'll bring me your future, your freedom your heart  
And you will be mine until death do us part
