Acid burns and the pain is sickening
Flesh is melting and the end is near
Limbs are hanging by a fucking thread
Someone did this and laughed while doing it

Septic severance, your flesh is gone
Septic severance, and now you burn away
Septic severance, your flesh is gone
Septic severance, and now you burn away

Massive torture brought by acid
Skin that no longer holds
Parts of bodies torn and melting
Flesh like snow like running water

Septic severance, your flesh is gone
Septic severance, and now you burn away
Septic severance, your flesh is gone
Septic severance, and now you burn away

Utter pain and screaming deluxe
This must be the worst of ends
As the acid flows and rips...
There's no possibility that anything will mend...

Septic severance, your flesh is gone
Septic severance, and now you burn away
Septic severance, your flesh is gone
Septic severance, and now you burn away
