Not gonna waste my energy
Being upset about you and me
Impale myself on a shard of glass
Rather than think our relationship could last
I hope I am bringing you joy (x2)

And I walk through the valleys
I saw the light bursting from your eyes
And I walk through the valleys
I saw something that maybe I shouldn't of

I hope you instil me in time
I hope you frame me in your mind
I infringe on your benefits
Misunderstood I am not a liar
And I could have loved you maybe baby (x2)

And I walk through the valleys
I saw the light bursting from your eyes
And I walk through the valleys
I saw something that maybe I shouldn't of

And you will sacrifice feelings for fame
And I feel like a shadow of a dream
And I dreamt of rebel moons out of place
And you will sacrifice feelings for fame

You will sacrifice feelings, feelings for for for fame
You will sacrifice your heart, feelings, feelings, for for
for
For fame (x4)

You will sacrifice feelings, feelings for for for fame
You will sacrifice your heart, feelings, feelings, for for
for
For fame (x2)

Not gonna waste my energy
Being upset about you and me
