Forget the face  
Mind on the preparation  
One chance: one chance to give up  
Let's light the place  
Eye on the desperation  
One chance: one chance to give

Planes will scream of this, so let them  
Planes will scream of this, so let them go

(Feel) The heat of the moment  
Burning down the nations  
Not there if we close our eyes  
The heat of the moment  
Burning down the nations  
Hearts shaped of dollar signs

LET'S LIGHT THE PLACE
