I don't hang up on you!
I've never been hurt that way
It doesn't matter anyway
your lips taste of
Promises, promises, you've never kept
And the tears you've never wept, betrayed and all
alone!

You push me back
No matter how far I get
I'm running in circles, caged up, put your hands
around my neck
I watch an angel fallin', crashin' next to me
You took my last breath you'll die. With me
tonight!

My back against the wall
feel broken down inside
I guess I feel alright
When time is passing by
Look at me! Are yo
u too blind to see, obviously too proud to see
You can't bury me!

You push me back
No matter how far I get
I'm running in circles, caged up, put your hands
around my neck
I watch an angel fallin', crashin' next to me
You took my last breath, you lie and bring us to our
knees again

I'm lying in my bed, thinking of these times when we
first met
I won't regret anything we had
I'll never let you down, spit out my rage, mouth wide
open, one thing that's for sure
. That I just scream once more!!!

Hold on, your breath, can you feel the silence?
You've never listened to a single word I said

Shut up, pick up the pieces, pieces of my broken
memory
Youâll never understand, shut up

You push me back
No matter how far I get
Iâm running in circles, caged up, put your hands
around my neck
I watch an angel fallinâ, crashinâ next to me
You took my last breath youâll dieâ. With me
tonight!
