Long, long, before the time  
Time of love  
You were there

Yet, long, before that time  
I warned my heart  
Always beware

I'd closed my eyes and lived alone  
For till that time  
Love was unknown  
Then, then, you came to me  
And kissed my eyes  
That I might see  
You brought me warmth  
You brought me Spring  
And gave my heart  
The strength to sing

No, no, the time is here  
The time of love  
For you are near

No, no, the time is here  
The time of love  
For you are near
