.. it's just a matter of time
before the questions hit back on your mind
You just give in to the way that ..
What's that reason why there is no reason at all
Mission:control we want it all
No one to follow take back your soul
Who are you living for
They say it's only .. are you awake and dreaming
Fooling around beats me the clouds
Over the whole world sleeping
Please please come down ..needing you now

Mission:control we want it all
No one to follow take back your soul
Who are you living for
Mission:control we want it all
No one to follow take back your soul
Who are you living for
Who are you living for
Mission:control we want it all
No one to follow take back your soul
Who are you living for
Fall not again
This is the moment that ,
Fall for ..

Mission:control we want it all
No one to follow take back your soul
Who are you living for
Mission:control we want it all
No one to follow take back your soul
Who are you living for
Who are you living for

Thanks to feel
