I can feel it come down
Like a storm pouring from the sky
I can feel it come out
Like the dark falling from the night
And I hope you can come
And I hope you can stay
?Cause

You make me
You make me all right (4x)

I can feel it come
If you?re down
You could take me out
I can feel it come
For a round
Like it isn?t now
And I hope you can come
And I hope you can stay
?Cause

You make me
You make me all right (8x)
