I think we know how this whole thing goes
I think we know how it works
I think we know 'cause we've done it before
I think we know 'cause it shows
You just stand there all day (You stand there all day)
You just stand there looking good

I think we know how this game is played
I think we know all the rules
I think we know 'cause we made them up
I think we know 'cause we're fools
You just stand there all day (You stand there all day)
You just stand there looking good

Okay, okay
I've got no sympathy
Okay, okay
It's all I ever hear you say
Okay, okay
What do you want from me?
Okay, okay
Take whatever you need
Okay, okay
I've got no sympathy
Okay, okay
It's all I ever hear you say
Okay, okay
What do you want from me?
Okay, okay
Take whatever you need
Okay, okay, okay

I think we know how to work it out
I think we what to bring
I think we know 'cause we always do it
I think we know 'cause we know
You just stand there all day (You stand there all day)
You just stand there looking good

Okay, okay
I've got no sympathy

Okay, okay
It's all I ever hear you say
Okay, okay
What do you want from me?
Okay, okay
Take whatever you need
Okay, okay
I've got no sympathy
Okay, okay
It's all I ever hear you say
Okay, okay
What do you want from me?
Okay, okay
Take whatever you need
Okay, okay, okay

Okay, okay, okay (2x)
