Chemicals, chemicals only served for two.  
You only think of me, you never ask to pick me up.  
Don't tempt me with a fake-ass crush because it's only  
fair to stare at you when you act on a dare.  
Dead girl, you sucked the life out of me.  
Dead ghost, you left me out of the beat.  
Sometimes I don't believe you when you say you are  
alive.

It always starts with you; you know what to get from me.  
The straight satisfaction of an open heart surgery.  
You should lose these type of feelings that you always  
bump.  
I won't stop bumping if there's no one around.  
Dead girl, you sucked the life out of me.  
Dead ghost, you left me out of the beat.
