(Si profond  
Il ny'a aucune mot a decrire  
Mais j'essaie encore  
C'est si profound)

So Deep... (4x)

It's a dream never to wake out of  
And I'm thankful for the day  
That I found you  
It's a path that I'm finally sure of  
And I'll never lose my way  
Now that I've got you  
I thought you should know  
I'm so in love with you

So Deep... (4x)

When I'm down, don't even have to tell you  
'Cause you always know if I'm low  
And I'm hurtin'  
Yes, I've found the one that I was joined to  
When souls were once combined  
In the beginnin'  
You're my twin soul  
I'm so in love with you

So Deep...

[So Deep Lyrics On ]

(Oui, c'est si profond  
Comme le coeur d'une galaxie  
Je voudrais bien l'expliquer mais, c'est impossible  
C'est just trop profond)

So Deep...
