I met you at the club that night
Where I was spinning records
And my heart said
Hey now
Hey now
Hey now
Hey now
Yaaaow

You said you were pleased to meet me
Through the sweet smell of your perfume
Blew me
Away now
Away now
Away now
Away now
Yaaaow

Later on that week we went out,
Talked under the stars until the next
Day now
Day now
Day now
Day now
Yaaaow

You drank your Fruitopia
And we never ran out of things to
Say now
Say now
Say now
Say now
Yaaow

Any minute I'm not with you
I hope I'll see you soon
There's just something that happens
When you walk into the room

And instantly I feel so complete
It hits me right about the time you kiss my cheek

And you give me this feeling
It's like no other feeling
But it knocks me off my feet

Please don't ask me what I like about you
Cause it's every little thing you do
And that's just the way you make me feel

And I don't think
That there are any others out there like you
And I won't blink cause that would mean
I would miss a second beside you

And maybe you know what I mean
Or maybe this is just a dream
I pinch myself just to make sure
But I'm still here and there you are
I wonder why we just met now
It just kind of happened somehow
But here we are together and
That's all that matters in the end

And instantly I feel so complete
It hits me right about the time you kiss my cheek
And you give me this feeling
It's like no other feeling
But it knocks me off my feet

Please don't ask me what I like about you
Cause it's every little thing you do
And that's just the way you make me feel

You can never ask for too much
Cause I'd travel the world just to feel your touch
And that's just the way you make me feel
