Here we are, in the best years of our lives.  
With no way of knowing,  
When the wheel stop spinning cause we don't  
Know where we're going  
And here we are, on the best day of our lives.  
And it's a go, lets make it last, so cheers you  
All to that, 'cause this moment's never comin' back

I used to know her brother, but I never  
Knew I loved her, 'till the day she laid her eyes on me.  
Now I'm jumpin' up and down,  
She's the only one around, and she means  
Every little thing to me.

I've got your picture in my wallet, and your  
Phone number to call it, and I miss you more,  
Whenever I think about you,. I've got  
Your mixed tape in my Walkman, been so  
Long since we've been talkin' and in a few  
More days, we'll both hook up, forever and ever

And here I am, on the west coast of  
America and I've been tryin' to think for weeks of  
All the ways to ask you, And now  
I've brought you to the place, Where I've  
Poured my heart out, a million times, for a million  
Reasons, To offer it to you  
I used to know her brother, but I never  
Knew I loved her, 'till the day she laid her  
Eyes on me. Now I'm jumpin' up and down,  
She's the only one around, and she means  
Every little thing to me

I've got your picture in my wallet, and your  
Phone number to call it, and I miss you more,  
Whenever I think about you,. I've got  
Your mixed tape in my Walkman, been so  
Long since we've been talkin' and in a few  
More days, we'll both hook up, forever and ever
