What have I done?
I don't know. Cause your gone.
My heart hasn't felt his pain before,
It's not strong enough to hold on.

Maybe I need this,
But I know I don't.
I need yooooou, yeahh.

I want to live with you and love with you,
Oh yes I do; I know I do.
Just hold me now, and we can make it though.
We'll make it through, oh,
You know it's true.

Maybe I need this,
But I know I don't.
I need you, oh,
Yeah.
I need you, ooh yes I do.

So please come on now, baby,
Can't we work this out?
You're the sunrise to my morning, baby,
Let's end these nights, all alone.
So please come on now, baby,
Can't we work this out?
You're the sunrise to my morning, baby,
Let's end this night, so lonely.

Please don't walk away,
Please don't walk away,
Please don't walk away,
I need you.

Please don't walk away,
Please don't walk away,
Please don't walk away,
I need you, ooh.
