What you need is gravity
To take this giant down and set you free
It's a world out there of flattery
Subtleties and fake handshakes
And you, you only trust yourself

What do you see in security
It ties you up and hangs you out of time
It's a classic case, a tragedy
It chews you up and spits you out
And you, you have only got one chance

These are my dreams
Feeble as they are
I'm learning a thing or two
It's in the way you do
Go get what you want

So tell me who you want to be
I think it's time "I heard it straight from you.
It's been a winding road
A slippery, slippery slope
You're all mixed up and turned around
And you don't even know yourself
Don't even know these songs about these dreams

These are my dreams
Feeble as they are
I'm learning a thing or two
It's in the way you do

(Go get what you want)
Yeah, these are my dreams
Selfish as they seem
I'm ripping apart the seams
It's all about how you
Go get what you want

(These are, these are my dreams)
(These are, these are my dreams)

So we're stuck inside a day dream - day dream
But we don't wanna wake up - wake up
We're stuck inside a day dream - day dream
But we don't wanna wake up - wake up

These are my dreams
Feeble as they are
I'm learning a thing or two
It's in the way you do
Go get what you want
(Yeah, these are my dreams)
Selfish as they seem
I'm ripping apart the seams
It's all about how you

Go get what you want
Go get what you need
Go get what you want
Go get what you need

(We're stuck inside a day dream - day dream)
(But we don't wanna wake up - wake up)
