It's for the summer nights,
When we use to sit and talk all night
All night about the stupidest of things
We didn't have a lot back then,
A cheap guitar stolen beer but that was all
That was all we ever needed

Whoa, whoa

Oh yeah,
Oh yeah they said make it happen make us proud
Whenever we were in vain, they were never so far away
Oh Yeah,
Oh Yeah I swear whatever happens I'll let you know,
And you can count on me if you need me around,
I'll be a quick phone call, just a quick phone call away

It's for the best of friends,
For all those careless times we drank all night
All night and tried our best to not get caught
We thought we'd found the perfect love,
Making out, acting cool, tonight we make our rules
It's past to me, still memory

Oh yeah,
Oh yeah they said make it happen make us proud
Whenever we were in vain, they were never so far away
Oh Yeah,
Oh Yeah I swear whatever happens I'll let you know,
And you can count on me if you need me around,
I'll be a quick phone call, just a quick phone call away

They said, make it happen make us proud
