It seems she's been gone for a while now, and I just
can't let it go
It seems she's always on the run now, and I'm afraid to
let her know
It's like her demons they follow me around
And there's nothing I can change about
The way she's living things, oh yeah
The way she's living things

Just hold on, hold on; and be who you wanna be
Just hold on, hold on; there's a lot more left to see
I know you know, yeah we both know that it's worth it in
the end
So if you stay just another night I swear we'll make it
through

Don't cover me I'm who I am for now, and I'm just trying
to be
The best I can and have it reflect on what's surrounding
me
It's true I know I have a few habits I can't kick
But I still mean it when I say
I think it's not too late, it's never too late

Just hold on, hold on; and be who you wanna be
Just hold on, hold on; there's a lot more left to see
I know you know, yeah we both know that it's worth it in
the end
So if you stay just another night I swear we'll make it
through

Just hold on, hold on; and be who you wanna be
Just hold on, hold on; there's a lot more left to see
