### "Take Warning"

stand by your freinds, wrong or right

can't call that justice when its just a stupid excuse to  
fight

single out and attack the ones who got no defense

you call that a new way of thinking i call it regression to  
ignorance

take warning

theres a new generation coming

and we really gotta stand up to them

nobodys got a thing against you

unless youve got something to prove

we dont need no set of standards,

we dont need a new set of rules

heard all that shit before

about stomping out any difference

we say stand together

(not to fight just to exist)

take warning

intimidation coming

and we really gotta say no to them

enough is enough is enough

why dont you just ease up

I saw another beat down last nite take warning

who's the next to hit the ground tonite take warning
