Avoid disaster  
We must stop sleeping  
We better wake up, wake up  
Before we start drowning

You know we lie, we lie to ourselves  
We lie, we lie to ourselves

My ears are ringing  
From all your screaming  
You better face it, face it  
Before you've wasted away

You know we lie, we lie to ourselves  
We lie, we lie to ourselves

Wake up, wake up  
Wake up and start singing  
Wake up, wake up  
Wake up and start singing  
Hit them in the heart

You're always running  
Trying not to stumble  
But you have to wait it, wait  
So let's not lie this time

You know, we lie, we lie to ourselves  
We lie, we lie to ourselves
