All right

In those bad, bad old days

Before you loved me girl (loved me girl)

I was just a lonely man

In so many ways

Till you loved me girl (loved me girl)

And I was your only man

You came into my life

And ended misery

In those bad, bad old days

That used to be

Everyday I say the fullest truth

But one day I'm gonna make it girl

Telling you

The sun goes down? every night

To see your smiling face

And hold you tight

I'm told that you'll be

Waiting there for me

But I can still recall

What used to be, yeah

In those bad, bad old days
Before you loved me girl (loved me girl)
I was just a lonely man
In so many ways
Till you loved me girl (loved me girl)
And I was your only man
You came into my life
And ended misery
In those bad, bad old days
That used to be
I shake a living
Out of this old world
But I'll give you everything
Believe me girl
I'm gonna really make it
To the top
And nothing in this world
Is gonna make me stop
You sure put a magic spell on me
I'm nothing like the man
I used to be, yeah
I still remember! (I still remember)
Just last September (last September)
In those bad, bad old days
Before you loved me girl (loved me girl)

I was just a lonely man
In so many ways
Till you loved me girl
(Loved me girl)
And I was your only man
You came into my life
And ended misery
In those bad, bad old days
In those sad, sad old days
In those bad, bad old days
That used to be
In your bad, bad old days
Before you loved me girl (loved me girl)
In so many ways
Till you loved me girl
(Sung over the previous 4 lines)
Thank you baby, thank you baby, yeah
Thank you very much
I'll give you the world, yeah
Thank you honey
Thank you, thank you baby, yeah
