No other arms no other lips no other love beside me  
No other star up above to guide me

We've had our stormy weather We've had our sunshine  
too  
We've shared them both together and I'm still here with  
you

Sometimes I made you happy Sometimes I made you  
blue  
But love kept us together and I'm still here with you

No other arms no other lips no Other love beside me  
No other star up above to guide me

Someday you'll go to heaven as all the angels do  
I'll find my way to heaven and I'll be there with you

No other arms no other lips no other love but you
