With you, my world is complete
but now, I'm standing alone and I bleed
screaming for you, waiting for you
now and forever, and I
got lost in the dark when you left
you left me so cold and now
I'm finding my way

to pull my self, back together

slowly, I'm killing myself from this distance
I'm absorbing the pain from this
dramatic depression

I'm losing myself, losing you

even though, it hurts
the things you
said back then
I am losing you, forever
now I'm falling down

in my dreams
you're holding my hand
and I feel, like I'm living again
but when, I open my eyes

I know It's a lie, cause my heart is still bleeding

even though, it hurts
the things you
said back then
I am losing you, forever
now I'm falling down

Now I'm screaming, out your name
I am screaming, to feel again
I am screaming, take my hand
I am screaming, can you feel my pain

now and even though, it hurts

the things you, said back then
I am losing you, forever
now I'm falling, down
