Can't imagine the pain inside of you.  
Can't take the violence shooting through.  
Unleash your rage, pounding fear into their eyes

Neuroses piercing through your head. Again and  
again.  
Can't take the fuckin' pain.

Bury your dead

No remorse for the victims massacred.  
There's no end to this twisted killing spree.  
Now come to terms with the rage that blinds your eyes

Neuroses piercing through your head. Again and  
again.  
Can't take the fuckin' pain.

Bury your dead

Transparent, forced-on guilt.  
Won't reconcile.  
Their distorted values  
Fucks your pride.

Appease your fevered mind  
Recoil from self-possession.  
Set things straight one last time:

Bury your dead.
