Soulless and resurrected.
Hiding where hate resides.
I've died in as many ways.
As you can say die.

Infertile Tries.
Still I compromise to meet your master's will.
Tarnished veins, eternal pain.
Now innocence is fading, is fading...

Into my infernal dreams of passion.
That I appease with deeds of sin.
You got your wings from the angels divine.
I stole mine from flies that died.

Needle lies.
Holds our demise.
Seems every day has lost its thrill.
I damn the voices inside my head.
Now sanity is fading.

Death lurks where life is cheap
I won't betray what rules my mind
Shithead!
I'm convinced my life returns in time
Shithead!

My roots beneath your skin
In your guilt I nest.
Face the truth that lies ahead.
Alive or dead.

Infertile cries.
Still I compromise to meet your master's will.
A feeble life is a life undone.
All that's life is finally dying.

Death lurks where life expire.
I can't betray what rules my mind
Shithead!
Still convinced my life returns in time

Shithead!

Life's but a dress rehearsal for hell.

I'm convinced my life returns in time
Shithead!

Infertile cries.
Still I compromise
to meet your master's will.
Tarnished veins, eternal pain.
Now innocence is fading, is fading.

Death lurks where life is cheap
I must betray what rules my mind
Shithead!
Now I know my life will return in time
Shithead!
