He cut that poor girl in half
While she was still alive
Do you have any idea the terror
That kid went through?
She was still alive for Christ sake

I was talking to myself last night
And we decided it's best to disconnect your life
It's nothing personal but then again I guess it is

You'll scream and beg, and plead and ask them why?
Well that's simple, we have decided you must die
And we'll execute you with lots of class and style
And that's enough to make us smile

Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now

Eeny, meeny, miny, moe
Catch my bitch by her toe
And if she hollers, I won't let her go
No, I've gotta show your life the door

Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now

Take my hand, darling, don't be afraid
I just want to decorate the wall with your brains
I get such a pleasure out of such a pain
I'll just drink a beer and watch you drain

Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now
Yes, we have to kill you now
