"In My Life"

There are places I remember all my life,
Though some have changed
Some forever, not for better
Some have gone and some remain.
All these places have their moments
Of lovers and friends I still can recall
Some are dead and some are living
In my life I loved them all.

And with all these friends and lovers
There is no one that compares with you
And these memories lose their meaning
When I think memories lose their meaning
When I think of love as something new
And I know I will never lose affection
For people and things that went before
I know'll often stop and think about them.
In my life I loved you more.

I will always remember you baby
'Cause you're part of my life

And I know I will never lose affection
For people and things that went before
I know'll often stop and think about them.
In my life I loved you more
My life I loved you more.
