Chaboki:

Blast off to the moon hoe

VWAHLA coming soon hoe

Them bitches off the Nuvo

My homies claiming Pluto

Whole bricks we move those

Move OG buy Hublot

From OGs get kudos

From old hoes to new hoes

Im tryna kick my feet up

From the dirt thats underneath us

From a student to a teacher

Im a prophet not a preacher

The bottom swear they need us

The top i know they fear us

So bust on a pussy before they tell you who are

bust on a pussy before they tell you who are

Split the profit with your team save for a car

Ride around town let em know who you are

Get your tape to the streets let em know that your raw

Keep it in your head that you gotta feed your squad

Keep it in your head that you gotta feed your squad

Free all my hittas rest in peace to all my dogs

Livin and forgiving i just gotta get this guap

Livin and forgiving i just gotta get this guap

Gint no drug can take the pain that went away when i
got made

That went away when i got made

Aint no drug can take the pain that went way when i got
made

That went away when i got made

That went away when i got made

Good god what i made today look like i got paid today

Rain man let it rain on me

Rain man let it ran on me

Good god what i made today look like i got paid today

Rain man let it rain on me

Rain man let it ran on me

Assalamu alaikum i don't really mess with bacon

But i still be going HAM on em

Still be going HAM on em

Assalamu alaikum I don't really mess with bacon

But i still be going HAM on em

Still be going HAM on em
