Living in this world

My life is faced with misery

Cause I have been living so siningly
Don't try saving me

It's a little too late

It was always meant to be
Chorus:

Breathing in, breathing out

Has become so hard

In the end, I will shout
It's almost done

Ripping in me, so violently

I can't embrace it

Cause living in this world

Has poisoned my life
Every night I cry out

All in pain
