### "6 Degrees And Falling"

Visit "[6 Degrees And Falling](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You used to have a fever for me darlin'  
I used to have that fire in my eyes  
Now we're ninety eight point six degrees and fallin'  
How cold does love get before it dies?

We've got the house, the fancy car  
Yeah, baby we worked hard now here we are  
Maybe we've paid more then it should cost  
We got a California king sized bed then we got lost

You used to have a fever for me darlin'  
I used to have that fire in my eyes  
Now we're ninety eight point six degrees and fallin'  
How cold does love get before it dies?

So many friends wind up alone  
Never knowin' what they had till it was gone  
So baby lock that door and turn down the light  
There ain't nobody leaving here till we get it right

You used to have a fever for me darlin'  
I used to have that fire in my eyes  
Now we're ninety eight point six degrees and fallin'  
How cold does love get before it dies?  
How cold does love get before it dies?  
How cold does love get before it dies?
