Playing in my sight again,  
And walks on my track  
A place too hard to find again,  
Where faces all look the same

How long can I keep running,  
From this emptiness I've found  
This chase has no direction,  
Just another face in the crowd

I run, I ride, I fly to get away  
No man, no hand, no eyes shall catch me on my way  
Down way down

On and on  
Can you hear the werewolves come around?  
For too long  
In my dreams I've seen them hunt me down  
In my dreams I've seen  
In my dreams I've seen  
In my dreams I've seen them hunt me down  
On and on  
Can you hear the werewolves come around?

Lights along the highway  
Smoke rising from the trees  
Got no destination  
Got no place to be

Saw him walking my way  
With a tattoo on his sleeve  
His smile is so inviting  
Now I don't know what to believe.

I run, I ride, I fly to get away  
No man, no hand, no eyes shall catch me on my way  
Down way down

On and on  
Can you hear the werewolves come around?  
For too long

In my dreams I've seen them hunt me down

I can hear them howling

I can hear them over all the city sounds

They call me out

No no no

No I won't have it

No no no

They call me out

On and on

Can you hear the werewolves come around?

For too long

In my dreams I've seen them hunt me down

In my dreams I've seen

In my dreams I've seen

In my dreams I've seen them hunt me down

On and on

Can you hear the werewolves come around?

Oh, when will this be over, yeah

Over
