Excuse me

here we go

I've seen the world

Been to many places

Made lots of friends

Many different races

I've had such fun around the world, it's true

African skies with a Nairobi moon, whoa

I fell asleep in Tuscany and dreamed

The one thing missing was you

Runaway with me, my love

Yeah, yeah, yeah, yeah

Runaway with me, my love

Yeah, yeah, yeah, yeah

I've woke up with an Australian breeze

And danced the dance with Aborigines, whoa

Under the moon glow down in Mexico I dreamed

One thing was missing, that's you

Runaway with me, my love

Yeah, yeah, yeah, yeah

Runaway with me, my love

Yeah, yeah, yeah, yeah

We'll sail the waters of many colors

Won't need a compass, love will guide our way

Don't need nobody long as we got each other

No need to hurry we've got every day

I wanna share the world with you, you see

Springtime in Paris feels so good to me, oh

This is for me reality, so please

Make all my wishes come true

Runaway with me, my love

Yeah, yeah, yeah, yeah

And I just know we'll have a good time

And I just know we'll have a good time

Oh...please come with me

And I just know we'll have a good time

It'll be fun, walkin' in the rain in Spain

And I just know we'll have a good time

Didn't quite hit the note, that wasn't such a good time

And I just know we'll have a good time

Don't you think so I do

And I just know we'll have a good time
