"You Baby"

Visit "[You Baby](#)" on MotoLyrics.com

You know I've been wanting you my whole life through
& now that you're my guy
I'm gonna live & die for only you
Baby, baby, now you're gonna know
All the ways I've had to throw you so
You're gonna see there's a lifetime of love in me just
for...

CHORUS:

You, baby; you, baby; ooo baby, just for you, oh oh only
you

...Could've made me wait this long wanting your kiss
But now you're really mine
I think of all the time you made us miss
Baby, baby, now that it's all right
I'm gonna hug & kiss you every night
You're gonna see that I saved all the love in me just
for...

(chorus)

(instrumental)

(repeat chorus & fade)
