(Baby USA)

A tiny piece of America nearly blew me apart

Driving on the wrong side of my English heart

I found myself caught in mid stream

I had a dream of a brand new start

Phone lines lie across the Atlantic

I guess it's time to fly trans romantic

Are you lonesome baby USA?

I heard you cry 3000 miles away

Go west young man you said

I was on my way

Don't shoot, I love you baby USA

Once upon a time my world was an open book

The pages turned, I stayed put

Now like a pilgrim on Plymouth sound

I'm America bound hand and foot

That's the pull of love's defection

A continental drift in my direction

Are you lonesome baby USA?

I heard you cry 3000 miles away

Go west young man you said

I was on my way  
Don't shoot, I love you baby USA  
A yellow cab from here to eternity  
A fifty-floor building points to all things heavenly  
Down at the roofs of high anxiety  
There's just another story from the naked city  
Are you lonesome baby USA?  
I heard you cry 3000 miles away  
Go west young man you said  
I was on my way  
Don't shoot, I love you baby USA  
Are you lonesome baby USA?  
I heard you cry 3000 miles away  
Go west young man you said  
I was on my way  
Don't shoot, I love you baby USA  
Don't shoot, I love you baby USA  
Don't shoot, I love you baby USA  
Don't shoot, I love you baby USA  
Don't shoot, I love you baby USA
