Digital love thing I can't believe it

I wanna make this mystery mine

You're part of history stand up and seize it

Digital love thing shine

Turn to the sky like a big receiver

The hills are alive but they won't deceive ya

Tuned to the wave of the false and the factual

Tellin' everybody 'bout the supernatural

Nature says end it final

You're going down on a DNA spiral

Hungry little heart breaker looking for a headline

Wanna deal? Here's a deadline

More than a matter of pure geometry

A whole damn catalogue of lies and infamy

A pay cheque a home wrecker double martini

Hail Caesar get Houdini

Take what you want to get what you need

Take a lot more at twice the speed

In cold precision in terror and art

A bullet and a ballet are a vowel apart

Hey digital get critical

Yo digital love thing go

Hey digital get critical

Information overload

Digital love thing I can't believe it

I wanna make this mystery mine

You're part of history stand up and seize it

Digital love thing shine

Here comes happyhead mouth in motion

You do the right thing you do the locomotion

Then you wonder why the caged bird sings

It's a lust for life or a chemical thing

Free will's the thrill now so choose it

Use your vote before you lose it

Evolution revolution hedonism I sing

Anybody got a body give the boy a love thing

Hey digital get critical

Yo digital love thing go

Hey digital get critical

Information overload

Digital love thing I can't believe it

I wanna make this mystery mine

You're part of history stand up and seize it

Digital love thing shine

Digital love thing I can't believe it

I wanna make this mystery mine

You're part of history stand up and seize it

Digital love thing shine

In real time
