By now they've fallen down  
Bodies stain the ground  
With wounds this deep, we might not recover  
No need to compromise  
We've set our sights  
The war you've started was instigated

One casualty's been left behind  
they've fallen  
But still we march on gun in hand  
One casualty's been left behind  
they've fallen  
And the blood stains my hand

I'm ready  
We're ready  
This ends tonight

With calloused hands we'll hold on  
It's hurt so bad for so long  
(We won't)  
We won't be left behind  
(We'll fight)  
We're withstanding fire

The stage is set  
We must be under attack  
Knuckles scraping this wooden box I lay in  
No time to brief him, he's already dead  
In time I'll have my sweet revenge

The war is over but I won't forget the  
way you left me for dead  
The war is over but I won't forget that  
look  
That look that I'd see when  
you run  
like the coward I know you are

(That look, right before I close my eyes)

We'll fight forever  
Just to be together  
I'll live forever  
I live for us
