Science mission  
Breakdown Capitan  
Lloyd response

He spins the ships controls  
Now escapes in his hole

All computers burning zero  
We won't need fuel  
The ship inside  
That lighting just makes the lab men drool

Passing by the rockets, sockets  
We don't need Lloyd  
Stuck through the aliens  
We only need choice

Asteroyd Lloyd needs you  
Asteroyd Lloyd needs you  
Flee and void Lloyd  
Flee and void, Lloyd

Asteroyd Lloyd  
Must destroy Lloyd

Schizophrenic  
Space wad Capitan  
Lloyd has a plan  
Exterminate our lifeboats  
Since they have space for one man

Asteroyd Lloyd needs you  
Asteroyd Lloyd needs you  
Flee and void Lloyd  
Flee and void, Lloyd

Asteroyd Lloyd  
Must destroy Lloyd
