"Disconnexion"

Visit "[Disconnexion](#)" on MotoLyrics.com

Changing randomly within
Peeling off her Sabbath skin
Growing tranquilized
Physically disguised
When she pulls the wise out

Entertaining overload
Information lost in code
Slowly pressurized
Left desensitized
When she pulls the wise out

And someone said to me
"Watch out, this is the disconnection
She's into simulate affection,
Cut off your current predilection
Shut down before there is a next one
Watch out, this is the disconnection
Shut down before there is a next one."

Ringling echoes in my head
Missing everything she said
Growing tranquilized
Slowly pressurized
When she pulls the wise out

And someone said to me
"Watch out, this is the disconnection
She's in into simulate affection
Cut off your current predilection
Shut down before there is a next one
Watch out, this is the disconnection
She's into simulate affection
Cut off your current predilection
Shut down before there is a next one."
