[Movie Sample]

It's been in the seventies
Matters and reports on the streets
That new laws are needed at every level
But war alone cannot make men see right
We are confronted primarily with a moral issue
But part of the question is whether all Americans
are to be allotted equal rights and equal opportunities
Whether we are going to treat our fellow Americans as
we want to be treated

[Intro: Remedy]

Dedicated, I came with the offerin
You know who it's for

[Chorus: Remedy]

For the +Fake MC's+ that swear they can rap
For all those cats that love to talk yak
For all those white kids who wanna be black
Yo love is still love y'all +I Gotcha Back+

[Remedy]

This is Remedy, remote mind devices, my advice is
priceless
The Devil got you chained in vices, the crisis
Will surface, your purpose is worthless
Attack on ya nervous, frontal lobe +Short Circuits+
The choices, the unheard voices
Comin from inside ya head, internally bled, red
Mislead and mentally dead, walkin
You said what you said, yo you was born to be talkin
I know about ya kind, ya state and frame of mind
Weakened deaf, dumb and blinds, you look but never
find
The evil that men do, yo Satan is in you
The tempter of man, release the negative if you plan to
continue
Your ways and actions, reactions, thought processin
patterns
Not logical, can't defeat the obstical
Understand, +I Ain't Mad at 'Cha+

Got to do what I can, throw my pen and my pad at ya

[Chorus]

[Chorus 2: Remedy]

To my hustlers on the corner, sell ya blow and ya crack
For the so-called Gods livin right and exact
Yo, positive and negative, opposites attract
Love is still love y'all +I Gotcha Back+

[Hook: Remedy]

I be the Sun and the rain, the +Pleasure and Pain+
The light inside the dark, I could never explain
I be the Sun and the rain, the +Pleasure and Pain+
The light inside the dark, I could never explain

[Remedy]

Fallen Angels are cast out of Heaven until
Created good became evil on ya own free will
No more, never taught, uncontrollable thought
Keep comin up short, happiness cannot be bought
Remedy Ross, great centrifical force
You'll never learn, born to burn, in the fire
Take my kindness for weakness, humble and
meakness
Those who speak don't know so I stay speechless
Any man disrespects deserves and gets what he gets
The most merciful forgives but he never forgets
Yo I don't need no friends, loose ends turned enemy
I weed out the fake, yes through process I Remedy
Eventually ya physcially trapped and strapped mentally
Love is still love though, +Death Be the Penalty+

[Chorus]

[Chorus 2]

[Remedy]

Heavenly grounded with no plans of fallin
+Never Again+, +Never Again+, that's my callin
No time for stallin, jet pack, acrobat raps, Venus fly
traps
Buy that, base snare, kickin a high hat
Warfare apparell, in my path walk narrow
A buck-seventy-five pounds raw, laser arrow
Seal team six, always speak with our hands
Disrupts plans and carry out commands
Want to dance with the spoken word and holy tongue?
The Unsung Heroes of the Shaolin slums
Heavens to mercy, lightning shall strike those who
curse me
Do not say thy name in vain, analyze the wise, it's the

guides

False tense and pretense, offense and defense

The lead current sequence

[Chorus]

[Chorus 2]

[Movie Sample]

The great kings have a task, and our task

Our obligation is to make that revolution, that change

Peaceful and constructive to all

Those who do nothing are inviting shame as well as
violence

Those who act boldly are recognizing right as well as
reality
