[Hook: Remedy]

Can't hear you now, I don't hear you, yo
I can't hear you now, tell me what's the deal though?
Can't hear you now, I don't hear you though
Can't hear you now, what's the deal though

[Remedy]

What, don't understand? See the kid startin' snappin,
man?
Tell me, what's happenin', Remedy, here's the plan
Clap, clap your hands, what you do girl, do your dance
Test me, you'll take a chance, victim of circumstance
Play wit fire, bound to burn, know you wanna go, wait
your turn
Me, show you how to earn, stop, watch, listen, learn
Time's up, now place your bet, what you see is what
you get
What you get is what you see, R-E-M-E-D-Y
Don't ask me that, white boy, that's my habitat
Swam from, yo, where you at? Too hits, now pass it
back
In the hood, smokin' the goods, never say can't, man,
cuz you could
Don't really think you should, be messin' wit my
livelyhood

[Chorus 4X: Remedy]

Remedy, huh, Remedy who?
Remedy what? Remedy you

[Remedy]

Can't tell you what to do, fuck with me I'll fuck wit you
One thing in life is true, one and one don't equal two
Two and two don't equal four, twenty-two ricochet
galore
Four and four ain't always eight, forty-four will set you
straight
X and Y ain't what you think, smoke a cigarette, have a
drink
What you get, you paid your fee, home of brave and
land of free

It don't matter what you say, every dog will have his
day
Industry, I hear the talk, in the street, I hear the talk

[Chorus 4X]

[Remedy]

Everybody's actin' like that shit can't happen
If it does go down, are you stickin' around?
If the shit hits the fan, will you run with your plan?
Will you stand up and fight or be gone for the night,
huh?
