

The Gathering "The Blue Vessel"

Visit "[The Blue Vessel](#)" on MotoLyrics.com

Its quest around the sun
Mankind on the run
Overwhelming indifference
Destruction fills my eyes
Blue and full of life
Wandering through time
Being outer space
It looks ya right in the face
The Vessel on its way
Saving the grace
Bright gentle face
A life saving case
Propulsion a mystery
Science, the missing link
But damage they cause
By inventing machinery
Inventing my greatest fear
There's so much to discover
Blaming each other tomorrow
Hurting each other today
Fading away
Denying the facts
Turning the Vessel into a wreck
Blowing prospect away
Not trying to save the day
Tomorrow fading away
Following time makes me afraid
