Don't know why I run and hide  
Make myself so lonesome  
You just say, "That's okay  
Hey babe, I'll catch you later"

It took a while  
To put it all together  
Now I know

You can't change somebody  
With your love  
No matter how right your are  
We are who we are

The sidewalks teem with sunlight beams  
A thousand rainbow colors  
Private parts troubled hearts  
All searching for the answer

Faded dreams  
And broken hearted laughter  
But now I know

You can't change somebody  
With your love  
No matter how right your are  
We are who we are  
We are who we are, yeah we are

Twilight fades another day  
Converted into memory  
We discuss the change in us  
I've never been this happy

It took some time  
To get it all together  
But now I know

You can't change somebody  
With your love  
No matter how right your are  
No matter how bright your star

No matter how fresh your scar

We are who we are, nothing more

We are who we are but nothing less

We are who we are, who we are, yeah
