Go Go Go

yeaa cÅ´mon

In a nature way frequent way  
Lights and cameras  
We spent this room shut it all down  
Surrounded by women V.I.P is the givin they can see  
how we livin cuz we shut it all down

With my roll-up red carpet with my entourage  
So much green like we camouflage  
WeÅ´re spending lots of paper at the bar (at the bar)  
These girls on us just to make it far (make it far)  
Baby I say do you like to party (hey) on the floor is were  
we party  
Wanna know what we do when we party  
At my crib we going party

In a nature way frequent way  
Lights and cameras  
We spent this room shut it all down  
Surrounded by women V.I.P is the givin they can see  
how we livin cuz we shut it all down

Baby I say do you like to party (hey) on the floor is were  
we party  
Wanna know what we do when we party  
At my crib we going party
