Take me to your lovin' place, take me right now
With your lovin' touch erase every line that's written on
my brow

Take me in your lovin' arms, I pray that you would
May not be forever more, it will be for good

Don't ask me to give you forever
Forever is one thing I ain't got to give
Worryin' about forever makes for dyin' slow
And lady, I'm just dyin' to live

I ain't got no room for no prophet of doom
Tryin' to scare me out of my mind
'Cause my future is in much bigger hands than mine
So lady, let's live while it's time

Take me to your lovin' place, take me right now
With your lovin' touch erase every line that's written on
my brow

Take me in your lovin' arms, I pray that you would
May not be forever more, it will be for good

Take me to your lovin' place, take me right now
Take me to your lovin' place, take me right now
