{\*19 seconds of people saying "Hi, I'm Jake Lefco"\*

[Jake Lefco]

This is for everybody breathin, cause everybody's  
fiendin  
for a reason to relax, for some music to believe in  
I'm here to feed 'em, this form of freedom  
It's more to me than, normally needed to succeed and  
more to see than, what's on the screen and, I want to  
see it  
Reveal it, and feel it, cause I'm a realist  
And I can't deal with the mis..leading proceedings  
The meaningless greetings, folks goin through the  
motions with no feelings  
No, really, don't gimme that, indirect dilly dab  
Beat around the bush crap, that's what I look past  
Like clean glass, keepin me heated like a steam bath  
Keep the sugar coating, I don't need that  
Keep that in mind, you'll be fine with me  
I'm not a thug, I never was, and I'm not tryin to be - it's  
not me  
I'm not above it, I'm not tryin to preach - it's not me  
I just speak from what I think, what I know and what I  
see

[Chorus]

This is for everybody breathin, cause everybody's  
fiendin  
for a reason to relax, for some music to believe in  
"You listening?" "Oh yeah" "Nobody's listening"  
"I'm listening~!" Okay, okay okay listen"  
This is for everybody breathin, cause everybody's  
fiendin  
for a reason to relax, for some music to believe in  
"Let's relax for a moment, okay?"  
"Take a deep breath"

[Jake Lefco]

I say the first thing that moves me to speak, release the  
beast  
Lose me, refuse to let logic confuse me

Knowledge is not just books, it's in the woods  
It's in the hood, it's on a subway train, it's in the Brook'  
Look, it's in the mirror, in the bad and the good  
Listen, it's in the voices of the misunderstood  
Listen, it's in the system, it's in the anti-war resistance  
Listen, it's in the politician  
It's in the schools and the prisons, the Jews and the  
Christians  
Mathematicians and magicians  
I keep my distance from those who won't listen  
Those who keep insistin they know it all  
Frigid and cold and all rigid, fear is all it is  
Business is business, but this shit is personal  
The illness is terminal, and hard to watch  
Like seein a man get his ass kicked it's hard to stop  
This is for everybody, anybody, all the spots  
Play me in your box, the neighbors call the cops  
You need a reason to relax, I give you all I got  
Music, and I don't care who thinks I'm wrong or not

[Chorus] - different quotes in lines 3-4

[Jake Lefco]

Forgive me if it's too deep, if I don't let it out I'm gonna  
lose sleep  
Instead I run my mouth 'til I lose teeth  
Even that's fixable, physical appearance just isn't that  
critical  
Obsession in the U.S.  
Young bucks stressin cause they gotta get the new  
kicks  
Some sell drugs while some parents couldn't do less  
That's how it is I guess, it isn't that direct  
It isn't my business, bear witness to neglect  
I don't have the answers, got a handful of questions  
I throw against the wall, see which stick and which fall  
All stressin aside, we need an outlet  
Find where the pressure's applied and let it out quick  
That goes for white black yellow and brown  
Cause everybody breathin needs mellowin down  
And everybody breathin needs medicine now  
That's the music to believe in so I'm settin it down

[Chorus] - different quotes in lines 3-4
