All these bottled up emotions swell inside my head  
Felling never felt before  
Makes me wonder, makes me wonder why...  
why I'm even here I try  
I got to find a way outside  
But nothing seems to open

So go... go away so i can't see you near me  
Near enough so I feel safe and fly....  
Fly away I hope you understand me  
Though I know you never will

The wind is blowing restlessly  
Those leaves left on my yard  
Whispering a melody makes me wonder  
Makes me wonder why  
Why I'm trapped in two fine lines  
Gathering all these signs I find  
Yet nothing seems to open

So go... go away so I can't see you near me  
Near enough so I feel safe and fly...  
Fly away i hope you understand me  
Though I know you never will  
I know you never will

Don't leave me here  
While I'm waiting right there on your porch

She stays quiet while they riot  
Broken bones there's nothing like it  
Lights are flashing people dashing  
She's there running from the crash scene  
Was it fatal will she make it?  
Her lifeless body lies there naked  
Will she make it...will she make it...  
God i hope she's fine (God i hope she's fine)

So go... go away so i can't see you near me  
Near enough so i fell safe and fly...  
Fly away i hope you understand me

Though i know you never will  
I know you never will
