I know i'm not the reason she's been sling in so late  
She's not a whore  
Although i may be the reason for deep breathing  
Caused her pants to hit the floor  
I see a little bit of me inside of you  
So i hate you hate you  
Despite the fact I'll try  
To make you love me  
Then you'll leave me  
Though you'll see me so deprived  
From love I'll feed you lies tonight  
What was the point of leaving me behind  
What was the reason that you see him  
Then you call me on the phone at night  
When you were all alone despite that  
I lie I lie alot to be honest with you it meant nothing  
I lie I lie alot to be honest with you it meant nothing  
She sleeps with one eye opened  
So she'll see me down the hall  
I lie I lie alot to be honest with you it meant nothing  
She takes advantage of my shyness  
Though my kindness is just an act  
That i will rarely ever display  
She leave a message for me  
Like she could ever compete with the new girl  
It's not you girl  
What was the point of leaving me behind  
What was the reason that you ee him  
Then you call me on the phone at night  
When you were all alone despite that  
I lie I lie alot to be honest with you it meant nothing  
I lie I lie alot to be honest with you it meant nothing  
She sleeps with one eye opened  
So she'll see me down the hall  
I lie I lie alot to be honest with you it meant nothing  
Your so distracting it could kill  
Open your window cause her i come now  
Your so distracting it could kill  
Your so distracting  
I lie I lie alot to be honest with you it meant nothing  
I lie I lie alot to be honest with you it meant nothing

She sleeps with one eye opened  
So she'll see me down the hall  
I lie I lie a lot to be honest with you it meant nothing
