Spaced out in spacetown

I know you've been

Shaping up for the shakedown

Let me in

We live and learn or crash and burn

This is spacetown

We're living in spacetown

We're living in spacetown

Anybody ever had a dream

Wouldn't wake up

And lose it over me

Anybody ever stole a scene

Wouldn't need to

If they could only be

Strangely serene

Facing the shakedown

Nobody ever ran the race and came out

The same as they went in

Nobody in a sacred place need leave it

If they could only bring

Some sense of grace for them to lay down

Hold this terrifying love
A charm against the cold
Do this and think of me
And let the world unfold
Spaced out in spacetown
I know you've been
Shaping up for the shakedown
So let me in
We live and learn or crash and burn
This is Spacetown
We're living in spacetown
We're living in spacetown
Everybody in the neighborhood
Wouldn't move on
If they could only see
Everybody for the common
Good shout something
Apart from look at me
Just watch the screen
When the mirror breaks down
You with all that you could own
Are trying to be true
And wait so patiently
For a bolt from out the blue
Spaced out in spacetown

I know you've been

Shaping up for the shakedown

So let me in

We live and learn or crash and burn

This is spacetown

We're living in spacetown

We're living in spacetown

Show me something I can use

A stone that I can throw

Or shall I turn away

And fall into the flow

Spaced out in spacetown

I know you've been

Shaping up for the shakedown

Let me in

We live and learn or crash and burn

This is spacetown

We're living in spacetown

We're living in spacetown

Spaced out in spacetown

I know you've been

Shaping up for the shakedown

Let me in

We live and learn or crash and burn

This is Spacetown

We're living in spacetown

We're living in spacetown

We're living in spacetown

We're living in spacetown

We're living in spacetown
