HG, soundtrack
feel me!
Uh!

You know I'm thinking about you
I'm thinking about that time, yeah
you and me go together
tonight tonight.
Let's go!

Mhmm, yeah, that's right

Boy I've been waiting for you so long
I think it's about time you take me home, hhm (let's
go!)
'cause I'm in love with you, don' know what else to do,
no
I think it's about time you take me home, mhm

I know you want it, yes you do,
I know you need it, yes you do
I know that you're feeling me 'cause baby I'm feeling
you mhm
I know you see it, yes you do,
so why don't you be it, yes it's true ohh
I think it's about time you take me home, home

I said just take me home, you know you are
now take me home, why just don't come take me home
you know you are to take me home, hey

Baby I'm blazing, you love me amazing yeah
you look like the type just know what you want, mhm,
(let's get it)
'cause you drive me crazy, yeah
so call em my baby, ah
I think it's about time you'll be take me home,

I know you want it, yes you do,
I know you need it, yes you do
I know that you're feeling me 'cause baby I'm feeling

you mhm
I know you see it, yes you do,
so why don't you be it, yes it's true ohh

I said just take me home, you know you are
now take me home, why just don't come take me home
you know you are to take me home, hey

Boy you can't take me anywhere you are, boy
you know that I'll always put you on, oh
I can't wait to have you next to me,
you know that I set your body free
baby just come home with me

I said just take me home, you know you are
now take me home, why just don't come take me home
you know you are now take me home, hey
I said just take me home, you know you are
now take me home, why just don't come take me home
you know you are now take me home, hey

Take me home!
